In today’s hospitality market, the competition to attract and retain loyal guests is fiercer than ever. What gives your property an edge? Technology has become a key component of a superior guest experience. Resort venues have become destinations in themselves, with dining, entertainment and even retail experiences offering immersive sound, video and lighting rivaling the best any city has to offer. Whether you’re outfitting a boutique property or a global megabrand, bring your most ambitious hotel concepts to life with integrated premium A/V technologies from HARMAN Professional.

EVERYTHING YOU NEED TO OUTFIT AN ENTERTAINMENT DESTINATION

- World-class sound, video, lights and atmospheric effects
- Integrated audio, video, lighting and control technologies
- Scalable systems for evolving entertainment needs
- A breadth of products for any application
- World-class technical support, anywhere in the world

A ONE-STOP SOLUTION

HARMAN Professional is the only complete audio, video, lighting and control vendor in the professional A/V market. We’re a house of iconic brands, including AKG, AMX, BSS, Crown, dbx, JBL Professional, Lexicon, Martin Lighting, Soundcraft and Studer.

As part of the Samsung family, we have the power and resources of a global operation and the flexibility of an independent, agile company. We take ownership in everything we do, and no project is too big or too small.

CAMPUS HOTEL HERTENSTEIN, SWITZERLAND

Campus Hotel Hertenstein has a healthy event business thanks to 12 event spaces that feature cutting-edge technology, including an AMX Enova DGX Digital Media Switcher and Modero X Touch Panels for lively and easy-to-manage parties, seminars, weddings, and more.

SEE THE CASE STUDY

GRAND MERCURE YANGON GOLDEN EMPIRE HOTEL, MYANMAR

After its debut in Asia Pacific nearly 20 years ago, Grand Mercure now operates a network of more than 30 upscale hotels and resorts globally under the international chain AccorHotels. To meet the hotel’s requirements, audio contractor Ghin Gar Cherry Trading Co. installed an end-to-end HARMAN audio system, consisting of JBL speakers, Crown amplifiers and Soundcraft mixers.

SEE THE CASE STUDY

PARK HYATT BANGKOK HOTEL, THAILAND

The Park Hyatt Bangkok needed to enhance the guest experience with world-class sound throughout the facility, including upgraded loudspeakers, amplifiers and mixing consoles. Park Hyatt Bangkok hired Mahajak Development Co. to install a complete HARMAN audio system comprised of JBL loudspeakers, Crown amplifiers and Soundcraft mixing consoles.

DRIVECORE INSTALL DA SERIES
Networked Amplifiers

For applications that require Dante or AES67 networked audio, the Crown DriveCore Install DA Series provides a balanced combination of output power, channel count and speaker load flexibility along with proprietary DriveCore® technology for superb efficiency and exemplary audio quality. The DC DA Series includes a high-powered DSP with JBL speaker tunings, network control/monitoring and the ability to drive 2/4/8/16 ohm, 70V and 100V speaker loads. The amp’s advanced capabilities and support for Dante Domain Manager makes it perfect for installations that have standardized on Dante for networked audio transport.

GUEST ROOM
HOSPITALITY TELEVISIONS
Hotel meeting rooms and boardrooms offer business travelers the same capabilities as conference rooms at the home office. HARMAN technologies empower effective collaboration between meeting participants in the room, or with stakeholders around the globe.
FLEXIBLE AND SCALEABLE FOR ANY EVENT.

Multipurpose hotel convention and wedding spaces must be able to be reconfigured for a variety of uses at a moment’s notice. HARMAN audio, video and lighting solutions are flexible and scalable, and can be configured for any event at the touch of a button.

The Soundweb Contrio platform and its two initial products, the Contrio server and Contrio wall controller range, are the first within the Soundweb Contrio family that will ultimately provide enhanced system control capability and audio routing flexibility for a variety of applications. Significantly, these and all future Soundweb Contrio products will be backward compatible with existing BSS Audio Soundweb London devices, providing the widest and most comprehensive choice of audio processing, distribution and control devices available in a single system solution today.

Experience brilliant image presentation with impressive brightness allowing businesses to deliver clear information 24/7. The display’s non-glare panels provide better visibility regardless of ambient light, ensuring critical information is always visible.
A TOTAL ENTERTAINMENT PACKAGE

Restaurants, bars and clubs give guests options to eat, drink and socialize right in the hotel, keeping your patrons onsite by offering everything they want in one space. And with integrated audio, video, atmospheric effects and lighting solutions from HARMAN, hotel venues can deliver dazzling entertainment experiences on par with the hottest spots in town.
