HARMAN assists our K12 and primary education clients with technology that supports students, staff, and administrators by creating a sustainable, efficient, safe and connected learning environment. HARMAN solutions unify the campus under a single, easy to manage interface bringing standard and flipped classroom environments, auditoriums, administrative spaces, voice reinforcement, bell & PA, and more together. In addition, our technology elevates individual learning spaces with beautiful video, crisp audio, support for student devices, and teacher student collaboration; all with solutions that are simple for staff to manage, and work well, every time, for years to come.
COMMON HARMAN APPLICATIONS IN K12 AND PRIMARY EDUCATION SPACES

Unified Campus
Bell and PA
Classroom Automation
Collaboration and Distance Learning

Video Signal Distribution
Audio Processing and Distribution
Loudspeakers and Sound Management
Architectural and Performance Lighting

FLIPPED CLASSROOM
CLASSROOM
GYMNASIUM
SUSTAINABLE, SAFE, CONNECTED SCHOOLS

HARMAN Professional Solutions is the world’s largest professional audio, video, lighting, and control manufacturer. We are shaping the transformation of K12 and primary education through bold innovations that enable teachers to engage with students using simple-to-manage technology integrated into efficient, connected learning environments.

ADMINISTRATION OFFICE
Unify the Campus
HARMAN’s SchoolView Unified Campus solution can tie together disparate systems like access control, Bell & PA, audio, signage, and more, bringing them under a single control with a common, easy to navigate interface to enhance learning, simplify campus communication, and provide critical audible and visual emergency notification.

CLASSROOM
Connect, Protect, and Support the Teacher and Students
HARMAN technology supports interactive learning in the classroom supporting student devices while tying the classroom to the unified campus for ease of communication to and from the administrative office and emergency notification. Our voice reinforcement technology relieves teacher voice strain with our convenient wearable pendant microphone and strategically placed classroom loudspeakers.
FLIPPED CLASSROOM
Engage Learners In-Room and Beyond
Reach beyond the local class to collaborate with students anywhere in the world with HARMAN flipped classroom technology featuring affordable, no maintenance, no hassle, web conferencing and classroom collaboration.

GYMNASIUM
Where the Action Happens
HARMAN audio, video and lighting solutions bring out the best for any performance. Whether it's sports or music, HARMAN ensures the action looks and sounds its best, providing spectators with an experience they'll never forget.

CAFETERIA / MULTI-PURPOSE ROOM
Flexible Space to Maximize Budget
Multi-use event spaces are crucial to support the needs of the student body with minimal budget. The right mix of audiovisual components, lighting and control solutions facilitate highly effective and impactful use of these spaces and can be easily configured to accommodate for divisible walls and moveable furniture.

AUDITORIUM
Present – Collaborate – Share
These large-scale teaching spaces are built to serve high-capacity classes with department-specific needs. HARMAN technology allows instructors to teach using content from room PCs, document cameras, and mobile devices to a variety of displays, sound systems and video systems.
Wherever you are, you can always contact us. We have dedicated team members ready and knowledgeable around the world who know our products inside-out.
